

Customizing the Look of Your Course

The Designer Tools menu allows you to change the icons, color scheme and other visual aspects of your course.

The screenshot displays the UMassOnline interface for managing a course. The top navigation bar includes 'Build', 'Teach', and 'Student View' tabs, with 'Build' selected. The course name 'PILOT_COURSES - LucyBorgheinck' is visible in the top right. The left sidebar shows a 'Course Tools' menu with various options like 'Course Content', 'Announcements', 'Assessments', etc. Below this is the 'Designer Tools' menu, which is circled in red. The 'Manage Course' option in the Designer Tools menu is also circled in red. Two red arrows point from the 'Manage Course' option to the 'Colors' and 'Course Content Icons' options in the main 'Manage Course' list. The 'Manage Course' list includes options such as 'Tools', 'Course Menu', 'Colors', 'Course Content Icons', 'Settings', 'Import', 'Course Preview Page Setup', 'Date Rollover', and 'Course URL'.

As you design your course, consider which online tools will serve your teaching style and make teaching easier, communication better, and grading faster.
