Lesson Plan: The Solar System

Grade Level: 5-6

Topics: Planets, Comets, Asteroids, Moons, and Solar System

Outcome: The students will be more familiar with the Solar System after doing their research. Please answer the following questions:

1. How many planets are there in the Solar System?
2. Name the planets
3. That makes up the solar system.
4. What is a comet?
5. Can you name three interesting facts about the moon?
6. Can you name three interesting facts about the sun?
7. What is a meteor?
